

CHATRON®

CAT05 EN

Solar Light Tube + LEDin

Solar Tube + Light Integral Controller

Maximum lighting efficiency

What are solar tubes?

Ecological systems where natural light is captured It is guided through a tube internally lined with extremely reflective material, which minimizes light scattering and allows light to be delivered at considerable distances without heat or cold transmission.

What is LEDin?

It is the integration of Led lighting in solar tubes, allowing efficient lighting 24 hours a day. During daylight and sunny periods the illumination of the space comes from the sun. As night approaches or the day gets darker, Chatron's "Light Controller" console introduces power to the LEDs to keep the desired and selected Lux level constant for that location.

Model	Power (W)	Dimmable Source	Source ON/OFF
LEDin 250	15	X	X
	30	X	X
LEDin 350	15	X	X
	30	X	X
	60	X	X
LEDin 530	120	X	X
	150	X	X
LEDin750	150	X	X
	240	X	X
